What It Means to Beg the World to Remove You from Your Own Address

This is not a metaphor. This page is a forensic record of a disabled Australian man, publicly publishing his own address, begging churches, journalists, lawyers, and private citizens to physically come and take him somewhere safer — because every institution whose job it is to protect him has refused to act.

1

THE SIGNIFICANCE OF PUBLICLY BEGGING FOR REMOVAL

A person does not publicly list their home address on an international website and beg strangers to remove them unless every formal channel has failed. Dr. Richard McLean — PhD holder, internationally certified professional, award-winning human rights advocate — has done exactly this.

He has contacted police. He has contacted the NDIS. He has contacted his disability support provider, AbleCare. He has filed with the ICC in The Hague. He has filed with the UNHCR in Geneva. He has submitted 2,304 blockchain-verified forensic documents to every relevant authority he can reach. He has done all of this while living at an address that a named individual has threatened to "sacrifice" him at.

The fact that this page exists — that it is necessary to publish an address and beg the world — is itself the most damning evidence of systemic failure in this archive.

Governments, agencies, and institutions designed to protect people like Dr. McLean have not just failed — they have been documented as active participants in his persecution. This page is what remains when every formal mechanism is exhausted. It is a public record of institutional abandonment.

2

ABLECARE REFUSES REMOVAL — ACTIVE COURT CASE · DOCUMENTED DEATH THREAT

Dr. McLean's disability support provider, **AbleCare**, has been explicitly informed of:

- ✗ An active court case — currently before Wyong Local Court (14 May 2026)
- ✗ A documented, archived death threat: "You will be sacrificed" — named perpetrator, named co-conspirators
- ✗ A formal written request by Dr. McLean to be physically relocated outside NSW
- ✗ The existence of the ICC Article 7 submission and UNHCR Geneva filing
- ✗ The specific risk posed by remaining at 55B Archbold Road, Long Jetty NSW

⚠️ ABLECARE'S RESPONSE

Despite being informed of all of the above — including an active criminal court proceeding and a documented death threat from a named former SAS operative — **AbleCare has refused to facilitate Dr. McLean's removal from the property.**

A disability support provider has a duty of care to the people it supports. That duty of care does not end when the person in danger is also a whistleblower. That duty of care does not end because acting would be inconvenient. The failure to act — with documented knowledge of the threat — is itself a documented event in this archive.

3

THE DEATH THREAT ARRIVED. THE THREATENER WAS ARRESTED. THE EVIDENCE IS FILED.

This is no longer a theoretical threat. An individual — referred to in the court record as **Troy** — made an explicit, documented death threat against Dr. Richard McLean. That threat is archived, blockchain-verified, and submitted to the court.

Troy has since been arrested. The arrest has occurred. The evidence has been filed. The court proceeding is active. The date is 14 May 2026 — Wyong Local Court.

THE QUESTION THAT REMAINS UNANSWERED

A death threat was made. The person who made it has been arrested. There is an active court case. The evidence has been filed. Dr. McLean is still at the same address where the threat was directed.

AbleCare still refuses to remove him. The NDIS still refuses overnight SIL funding. The question every reader should be asking: why is the person who received a death threat still at the address where the threat was made — after the threatener has been arrested?

The arrest proves the threat was real. The continued refusal to facilitate removal proves the institutional abandonment is also real. Both are now permanent records in this archive.

This SOS Is Directed To

Churches & Faith Communities

Any congregation, pastor, or faith network with safe housing capacity, particularly outside NSW. Dr. McLean's documented faith and survival are archived. Temporary or permanent refuge considered.

Advocates & Legal Aid

Human rights lawyers, legal aid services, pro bono advocates, civil liberties organisations. An ICC submission is already filed. The legal record is complete. Representation or oversight requested.

Private Investors & Supporters

Any individual or entity willing to fund safe relocation, legal representation, or ongoing documentation. The archive has 492,544 downloads across 6 continents. The case is documented and verified.

📍 Current Location & Entrapment Conditions

Address: 55B Archbold Road, Long Jetty NSW 2261, Australia.

Dr. McLean is currently residing at this address under what the documented archive terms "**entrapment by geography**" — a condition documented in the archive as an instrument of the coordinated persecution framework. NSW jurisdictional boundaries cover the agencies, institutions, and networks documented in the 2,304-exhibit archive. The location is not chosen freely: it is the product of documented NDIS SIL funding denial, \$32.9 million in financial destruction, and a 35-year systematic elimination of housing, employment, and institutional support options.

The address is published here deliberately, under Dr. McLean's instruction, as a documented act of transparency. This location is not hidden. It is not secret. It is the address of a person who has been subjected to 14 involuntary psychiatric hospitalisations, a documented death threat, a 2021 clinical death at 2.87% survival probability, and a pharmacological assault confirmed in an ATO letter on official letterhead — and who is still documenting, still submitting to international jurisdiction, and still alive.

PREFERRED RELOCATION

Cairns (QLD) · Perth (WA) · Any location outside NSW jurisdictional boundaries of the documented entrapment network. Queensland and Western Australia are preferred. International relocation considered if safe harbour is offered.

Itemised Needs — What Is Required

CRITICAL

Legal Aid Advocate

A practising lawyer, human rights advocate, or legal aid service with capacity to represent or oversee Dr. McLean's domestic position while ICC and UNHCR submissions are under review. Must be willing to engage with a documented 35-year case with 2,304 primary-source exhibits. Pro bono or funded representation.

CRITICAL

Physical Safe Housing

Secure accommodation outside NSW — Cairns, Perth, or equivalent. Temporary (weeks) or permanent. The person requires privacy, stability, and freedom from the surveillance and institutional monitoring documented across the archive. No NDIS-funded SIL arrangements — the NDIS is a named respondent in the ICC submission.

HIGH

Person of Integrity

A single individual — a pastor, retired professional, human rights worker, investigative journalist, or community leader — with the willingness to accompany, witness, and support ongoing documentation. Not a paid carer. A person of documented integrity who understands the gravity of the ICC and UNHCR filings.

HIGH

Financial Support for Relocation

Transport costs, bond/rent for initial housing outside NSW, basic living expenses during transition. The archive is publicly accessible with 492,544 downloads across 6 continents — the documentation of need is complete. Any contribution is publicly recordable.

MODERATE

Media or Academic Engagement

A journalist, documentary filmmaker, academic institution, or human rights researcher willing to engage with the archive on record. The 56 forensic analyses and 617 verified propositions constitute an unprecedented evidentiary record. International media preferred.

MODERATE

International Relocation Support

If any nation, human rights organisation, or private entity is willing to offer safe harbour outside Australia, Dr. McLean will consider any jurisdiction where the UNHCR filing is recognised and the ICC submission provides protective context.

Federal Court of Australia — What Their Own Government Confirmed

LETTER FROM SCOTT TREDWELL, GENERAL COUNSEL · FEDERAL COURT OF AUSTRALIA · 27 MARCH 2023

✓ EMPLOYMENT STATUS — CONFIRMED BY THE FEDERAL COURT

The Federal Court's own General Counsel formally assessed and concluded:

"I am satisfied that you are, or were, an employee with the Department of Social Services."

This is the same employment status that the Department of Social Services, the NDIA, and multiple agencies systematically denied over 35 years. The Federal Court — on official letterhead — confirmed it in writing. That confirmation is now an exhibit in the ICC submission.

The Federal Court then confirmed that the disclosure **potentially establishes three categories of serious wrongdoing under the Public Interest Disclosure Act 2013 (Cth):**

1

Perverting the Course of Justice

PID ACT S.29 ITEM 3(A)

Conduct that perverts, or is engaged in for the purpose of perverting, or attempting to pervert, the course of justice. The Federal Court found reasonable grounds to consider this category satisfied by the disclosed conduct.

2

Maladministration — Institutional Conspiracy

PID ACT S.29 ITEM 4

Conduct that constitutes maladministration. This encompasses the coordinated institutional conduct across 25+ government agencies documented in the 2,304-exhibit archive — the systematic denial of employment, identity, financial standing, housing, and medical safety.

3

Danger to the Health or Safety of a Person

PID ACT S.29 ITEM 8

Conduct that unreasonably results in a danger to the health or safety of one or more persons, or unreasonably results in or increases a risk of such danger. The Federal Court acknowledged this category — and subsequently, Tony Ridley (MSc CSyP FSyI SRMCP, Ex-SAS, NDIA) sent the documented death threat: "You will be sacrificed."

THEN REJECTED — ON A TECHNICALITY

Having confirmed the employment, and having acknowledged all three categories of serious wrongdoing, the Federal Court then decided it could take no further action — because Dr. McLean had filed to the wrong recipient. The Federal Court was not the authorised agency for this disclosure. No referral was made to the correct agency. No warning was issued. The matter was closed with the recommendation to complain to the Commonwealth Ombudsman.

The Significance — "Danger to Health or Safety" + "You Will Be Sacrificed"

The Federal Court formally acknowledged that the disclosed conduct potentially establishes a **danger to the health or safety of a person**. That acknowledgement is dated 27 March 2023. The documented death threat from Tony Ridley — **"You will be sacrificed"** — names four co-conspirators and comes from a security operative with documented connections to ASIO. The document is archived, blockchain-verified, and submitted to the ICC.

The Federal Court's own finding of potential danger to health and safety, combined with a named death threat from a credentialed intelligence-connected operative, combined with 14 involuntary psychiatric hospitalisations and a 2021 clinical death at 2.87% survival probability — constitutes the most comprehensively documented assassination attempt in Australian legal history. Not a single agency has acted. The ICC submission is the result.

ICC Article 7 — The Hague

A formal submission under ICC Rome Statute Article 7 (Crimes Against Humanity) has been filed and

formally received at The International Criminal Court, The Hague, Netherlands. The submission documents systematic persecution including psychiatric weaponisation, pharmacological assault, financial destruction totalling \$32.9 million, identity fraud at scale, and a death threat from a named security operative with intelligence connections. The ICC receipt is archived.

UNHCR Geneva — Refugee Protection

A formal filing has been made to the United Nations High Commissioner for Refugees, Geneva, Switzerland. The filing documents that Dr. McLean faces ongoing persecution within his country of citizenship — Australia — through coordinated institutional instruments including state-deployed psychiatric hospitalisation, financial erasure, and a documented death threat from an ASIO-connected operative. The UNHCR filing is archived and publicly accessible.

Documented Torture & Detriment — Defined

The following instruments meet the definition of torture under the UN Convention Against Torture (UNCAT) Articles 1 and 16, and constitute detriment under Australian whistleblower protection legislation. Each is documented with primary-source evidence in the archive:

PSYCHIATRIC WEAPONISATION

14 involuntary psychiatric hospitalisations deployed as suppression instruments against an individual producing primary-source evidence of government corruption. Each hospitalisation is a documented clinical record. Clinical weaponisation of the psychiatric system constitutes torture under UNCAT Article 1 where the suffering is intentionally inflicted for a prohibited purpose.

PHARMACOLOGICAL ASSAULT

Australian Taxation Office letter confirming pharmacological assault on Dr. McLean — on ATO official letterhead, archived and publicly accessible. Administration of substances without consent for the purpose of suppressing testimony constitutes torture.

FINANCIAL ERASURE — \$32.9 MILLION

Documented systematic destruction of Dr. McLean's financial standing across his entire working life through coordinated agency action, ASIC identity fraud (350+ registrations), and institutional exclusion from economic participation. Financial erasure as a suppression instrument constitutes prohibited detriment.

DEATH THREAT — DOCUMENTED EMAIL

Tony Ridley (MSc CSyP FSyl SRMCP, Ex-SAS, VicTrack, NDIA): 'You will be sacrificed.' Email archived. Four co-conspirators named. Threat from a security-credentialled individual with documented intelligence connections constitutes torture-adjacent conduct and criminal threat.

NDIS DENIAL — OVERNIGHT SIL

Denial of overnight Supported Independent Living funding to a person with documented disability, leaving them without care and in documented danger. The denial is on NDIS official correspondence, now an ICC exhibit.

CLINICAL DEATH — 2021

Dr. McLean died clinically in 2021. Documented survival probability: 2.87%. The circumstances surrounding the admission are documented in the archive as part of the institutional murder allegation. Clinical record is archived.

🕒 Public Transparency Statement — Dr. Richard McLean

This address is published deliberately. Dr. McLean's location is not concealed because concealment is not the posture of a person who has filed at the ICC and the UNHCR. The archive is public. The address is public. The case is public.

Dr. McLean formally states: any person who approaches his address with the intent to cause harm will be filmed. The resulting footage will be archived, blockchain-verified, and added to the ICC submission as a primary-source exhibit. This is not an invitation. It is a statement of the same documentary practice that has produced 2,304 verified documents over 35 years. Everything is evidence.

The death threat from Tony Ridley — "You will be sacrificed" — is already in the archive. It did not produce silence. It produced Analysis #56. The pattern is documented.

Today's Threat — Formally Documented & Distributed

On 15 April 2026 at 7:42 AM, Dr. McLean formally documented a **direct death threat by a local individual**, continued harassment by Steve Iasonidis and associates, and police attendance at 55B Archbold Road, Long Jetty NSW — where officers departed without action and verbally slurred Dr. McLean as "*a fucking pedo*" as they left. Dr. McLean formally invited arrest as a challenge to place the evidence before a court. This record was simultaneously distributed to NSW Police and 50+ sitting Federal MPs.

RECORDED CALL — APRIL 15, 2026

AbleCare Call — What It Proves

On the same morning as the death threat, Dr. McLean was on a recorded phone call with AbleCare CEO Rachel and support worker Brett — the NDIS provider legally

responsible for his safety. The call is now a primary source exhibit. [Full annotated transcript →](#)

CRITICAL — VICTIM-BLAMING AS INSTITUTIONAL POSTURE

Brett (AbleCare) Blamed Dr. McLean for Giving His Address to the Person Now Trying to Murder Him.

Instead of initiating any emergency response, Brett's primary intervention was to say: *"If you're worried about people doing this, you shouldn't be giving out your address to random people."*

Dr. McLean is a human being trying to live a normal life — to have friends, to meet people, to exist in the world as every other person does. He is entrapped within AbleCare's own company, inside AbleCare's housing, dependent on AbleCare's workers, and isolated by the architecture of the NDIS support system. When he attempts to exercise the basic human right to social connection, his care provider — his supposed protector — uses that act of human normalcy as the justification for his own endangerment. This is not a welfare response. This is coercive control framed as support.

"I don't take unsolicited advice from any single person on this earth because I fly this spaceship. It's my life. No one can tell me what to do — which is legal and acceptable in any other human life if it wasn't mine. What I've done is just try to have a normal life when all of you have ganged up on me." — Dr. McLean, on the call

CRITICAL — TACTICAL DISCONNECTION = ADMISSION OF COMPLICITY

Rachel (AbleCare CEO) Hung Up Mid-Call During an Active Death Threat — Then Said "Thanks, Barron."

Rachel explicitly confirmed on this recorded call: *"Of course"* — when asked whether AbleCare is under legal obligation to protect a vulnerable person in their care from physical harm. She then immediately deflected to the Public Guardian, told Dr. McLean resolution would take *"some days or some weeks,"* and terminated the call citing another incoming call — ending with: *"Thanks, Barron."*

No interim safety measure was offered. No additional worker was assigned. No police report was filed. No incident report was initiated. No follow-up time was confirmed. Rachel acknowledged a legal duty of care and then exited the

conversation as though it were a routine scheduling matter.

When a CEO confirms a legal obligation on a recorded call and then provides zero response to an active, same-day murder threat — that is not incompetence. That is a choice. A choice with a name: complicity.

● THE CONTRADICTION — IF THEY CARE SO MUCH

AbleCare Claims to Care. So Why Is Dr. McLean Trapped in a House Without Food, Legal Representation, or Basic Human Rights — With a Killer on the Way and Police Who Won't Investigate?

No Food

Dr. McLean is trapped in NDIS accommodation without adequate food. His support system — paid by the Australian government to care for him — has not resolved this.

No Legal Representation

Legal aid has been obstructed by the Public Guardian. Every avenue to legal counsel has been blocked. He defends himself in the public domain because he has no choice.

No Human Rights

He cannot leave freely. He cannot socialise without being targeted. He cannot use his phone without it being intercepted. His home is bugged. He is surveilled in the house his care provider manages.

No Police Protection

Police attended on April 15, 2026. They left without an incident report. They verbally slurred him as 'a fucking pedo' on the way out. They did not investigate the death threat. They did not arrest anyone.

Killer Approaching — Unimpeded

The person who threatened to murder Dr. McLean is documented, named, and known to police. No action has been taken. No apprehension has occurred. No protection order has been enforced.

Response: 'Days or Weeks'

AbleCare CEO Rachel told Dr. McLean that his request for emergency relocation away from the active threat would take 'some days or some weeks.' This is the sum total of

the response.

● V2K REAL-TIME — VOICES PARROTING "GIVE UP" AND "PEDO"

During and After the Call: Electronic Voice-to-Skull (V2K) Harassment in Real Time

At the end of the recorded call, Dr. McLean states plainly: *"The V2K is in the background saying 'give up.'"* This is not a metaphor or a complaint about external noise. Voice-to-Skull (V2K) technology — microwave auditory effect weapons capable of transmitting sound directly into the skull without speakers — has been documented in this archive across multiple forensic exhibits and is the subject of its own dedicated evidence page.

The words being delivered are strategically chosen: **"give up"** and **"pedo."** These are not random. They are the two psychological levers of the targeting operation: manufactured hopelessness and fabricated stigma. The same slur shouted by NSW Police as they walked away — *"fucking pedo"* — is now being whispered directly into his skull by electronic means. The slander does not need to be believed. It needs to be repeated. At every layer. By every mechanism. Until the target either internalises it or breaks.

Forensic significance: The simultaneous deployment of the same slur ("pedo") by police officers verbally, and by V2K technology audibly, on the same day, is not coincidence. It is coordination. The words are the same because the operation is the same. This is documented. This is archived. This is an ICC exhibit.

● CRITICAL — WRITTEN NOTICE — NO PLAUSIBLE DENIABILITY

Dr. McLean Texted Brett Butler His Exact Fate — Including the Link to 2,304 Documents — The Same Day. Brett Did Not Act.

"I've already confirmed multiple assassination attempts police were aware of and refused to act. I've now confirmed they will be complicit in my imminent murder. You're going to be a hero brett for enabling my targeted killing. I've published my SOS to the world but no one intervened. If you're so cared for by you why will you allow my human sacrifice? Congrats. You're famous. After I'm dead they will throw you under the bus just like you threw me to my death."

— Dr. McLean, SMS to Brett Butler (AbleCare), April 15, 2026. Preserved, timestamped, irrefutable.

Written notice — irrefutable

Brett received this message in writing. He cannot claim ignorance of the death threat. He cannot claim ignorance of the evidence. The SMS is dated, preserved, and now an exhibit.

2,304 documents delivered directly

Dr. McLean sent Brett the direct link to barrandodger.com — the full evidentiary archive. The person responsible for his safety had the entire documented record placed in his hands. He did not act.

'Why will you allow my human sacrifice?'

This is the question AbleCare has no answer to. Their silence — in response to a written death warning from a person in their legal care — is the answer.

'After I'm dead they will throw you under the bus'

This is not a threat. This is a documented prediction of institutional betrayal — the pattern of every targeting operation: use, abandon, deny. Brett was warned. The warning is recorded.

 **NDIS Surveillance Evidence**

Larissa (AbleCare) — Recorded Denial of Death Threat Knowledge

NO INCIDENT REPORT · NO POLICE REPORT FILED · DELIBERATE ENTRAPMENT · KIM ABANDONS BLAMING BARRAN

● **PRIMARY AUDIO EVIDENCE — ABLECARE INCIDENT RESPONSE FAILURE**

 00:00  00:00   

RECORDED CALL — LARISSA (ABLECARE) — DEATH THREAT DENIAL / FAILURE TO FILE INCIDENT REPORT / ABANDONMENT

LARISSA DENIES ALL KNOWLEDGE OF THE DEATH THREAT — WHILE PLACED RESPONSIBLE FOR HIS SAFETY

On this recording, Larissa — an AbleCare representative — denies any knowledge of the documented death threat against Dr. McLean, despite AbleCare being his registered NDIS provider with a statutory duty of care under the NDIS Quality and Safeguards Commission Act 2018. She claims AbleCare "cares" about him.

At the time of this call, Dr. McLean had already been subjected to a confirmed assassination attempt. AbleCare had already received written notice of the threat — including the full forensic archive at barrandodger.com — directly from Dr. McLean to Brett Butler. No incident report was filed. No police report was initiated. No emergency response protocol was activated. Larissa denied knowledge of all of it and offered reassurances of care that the evidence directly contradicts.

WHAT ABLECARE'S INACTION PROVES — THE INCIDENT

REPORT THAT NEVER EXISTED

No Incident Report

Under NDIS regulation, any threat to a participant's safety requires a mandatory incident report to the NDIS Quality and Safeguards Commission. No report was filed. This is a documented regulatory breach — for a confirmed assassination attempt.

Zero Police Report Accepted

Police attended after the April 15 death threat and left without filing a report or event number. AbleCare — aware of this — did not escalate, did not file independently, did not challenge police inaction. They accepted a zero-report response to a murder attempt.

Deliberate Entrapment to Cause Harm

Dr. McLean was housed inside AbleCare's own infrastructure — dependent on their workers, isolated by their system, with no independent exit. This is not care. This is structural entrapment: the provider who controls your housing, your workers, and your case management also controls whether you survive a death threat.

Larissa Claims They Care

Claiming to care, while deliberately placing a person in harm, refusing to file mandatory incident reports, accepting a zero police response, and offering no interim safety measure — is not care. It is a cover story. It is documented. It is on the recording.

△ **KIM LEAVES BLAMING HIM FOR BEING "UNREASONABLE" — AFTER DELIBERATE ENTRAPMENT TO CAUSE HARM**

Kim — an AbleCare support worker — departed the situation blaming Dr. McLean for being "unreasonable" following his raised voice. This departure occurred **after AbleCare had deliberately structured conditions designed to cause harm**: no incident report, no police report, no emergency response, no alternative housing, no safety plan — and a known assassin in proximity. Dr. McLean's anger in that context is not evidence of unreasonableness. It is the rational response of a person who understands that he has been deliberately placed in danger and that the organisation responsible for his safety has chosen institutional self-protection over his survival.

"Larissa doesn't consent to being recorded." He doesn't consent to being murdered by her negligence. The recording exists because the

institutional response to a death threat was denial. The anger exists because the support worker left after entrapment. These are not the defendant's problems to manage. They are evidence.

SIGNIFICANCE OF THIS RECORDING — LEGAL AND FORENSIC

- ◆ AbleCare's failure to file a mandatory incident report following a confirmed assassination attempt is a breach of the NDIS Quality and Safeguards Commission Act 2018 — independently reportable to the Commission, the Ombudsman, and the ICC.
- ◆ Larissa's denial of knowledge of the death threat — on a recorded call, after written notice had been delivered to her organisation — establishes either deliberate deception or wilful institutional blindness. Both are documented failures of duty of care.
- ◆ Kim's departure — framing the victim's distress as unreasonableness after deliberate entrapment — is a documented pattern of blame-shifting that has characterised every AbleCare, Diversitas WA, and NDIS provider interaction in this archive.
- ◆ The recording is a primary-source exhibit. It does not require interpretation. It contains AbleCare's own words denying knowledge of an assassination attempt they had been formally notified of in writing.
- ◆ Under Section 7(2) of the Surveillance Devices Act 2007 (NSW), a party to a conversation may record it without consent where it is reasonably necessary to protect their lawful interests. A person facing a confirmed death threat, with an NDIS provider refusing to act, has the most documented lawful interest for self-protective recording in this archive.

• IMMINENT DIRECT DEATH THREAT — TEXT MESSAGE EVIDENCE

"Ur a Dead Man" — Troy: Written Death Threat + Fabricated Rape Allegation as Weapon

PRIMARY SOURCE EVIDENCE · PRESERVED SCREENSHOT · NO INCIDENT REPORT FILED BY ABLECARE · NO POLICE REPORT ACCEPTED · ZERO ACCOUNTABILITY

SCREENSHOT — PRESERVED EVIDENCE

Troy (contact blocked) — full sequence of messages including coordinated arrival with associates, extortion via fabricated rape allegation, and explicit death threat "Ur a dead man." Screenshot is blockchain-timestamped, archived, and submitted to ICC.

WHAT TROY'S MESSAGES ESTABLISH — FORENSIC BREAKDOWN

● PRE-MEDITATED GROUP ATTACK

"I'll be there in a bit with a few mates"

Troy announced he would arrive with multiple associates — a coordinated group attack, not a spontaneous individual. This is not a verbal altercation. This is a planned assault.

● **FABRICATED RAPE ALLEGATION AS EXTORTION WEAPON**

""Or I'll just go to the cops and tell them how U help me against my will and rapped me and live streamed it""

Troy explicitly weaponised a false rape allegation as leverage — demanding compliance under threat of a fabricated criminal complaint. This mirrors the documented pattern: a girl paid to fabricate an allegation (confirmed by Ben, DSW), Shorten's psychiatric destruction strategy disclosed by police to Dr. McLean's NDIS worker. Allegation fabrication is the operational template used against Dr. McLean across 35 years. Troy used it as a threat instrument in real time.

● **EXPLICIT DEATH THREAT — IN WRITING**

""U wait cunt" / "Ur a dead man""

Direct, explicit, written death threat. No ambiguity. No interpretation required. Troy stated he would kill Dr. McLean. This is preserved in a screenshot. AbleCare received written notice. No incident report was filed.

○ **THE ABSENCE OF AN INCIDENT REPORT IS NOT ADMINISTRATIVE FAILURE — IT IS A WEAPON**

AbleCare is Dr. McLean's NDIS registered provider. They are **legally obliged** under the NDIS Quality and Safeguards Commission Act 2018 to file a mandatory incident report whenever a supported participant faces risk to their safety. Troy's death threat — "Ur a dead man" — received by a person in AbleCare's care and formally documented in writing — is precisely the class of event that mandates immediate incident reporting. **No incident report was filed.** Police attended and left without recording an event number. **No police report exists.**

This is not a coincidence of administrative process. The deliberate absence of an incident report has three direct operational consequences — all of which increase the risk to Dr. McLean's life and all of which benefit the perpetrators:

✧ **VULNERABILITY CREATED FOR: VIGILANTES (TROY AND HIS MATES)**

Without a police event number or incident report, Troy faces zero documented accountability for his death threat. There is no official record that he threatened Dr. McLean's life. He can return. He can escalate. His "mates" can arrive. The absence of documentation is functional impunity — and it is created and maintained by AbleCare's refusal to report.

VULNERABILITY CREATED FOR: LAW ENFORCEMENT

Without an incident report or police event number, any subsequent confrontation — including a fatal one — begins from a blank record. Police cannot act on patterns they have refused to document. If Troy returns and kills Dr. McLean, the prior threat leaves no official trace. This is the operational advantage of the zero-report response: it prevents protective intervention before the fact and forecloses accountability after.

VULNERABILITY CREATED FOR: LEGALLY OBLIGED CARERS (ABLECARE, NDIS SYSTEM)

AbleCare's failure to file a mandatory incident report is not just a breach — it is a strategic choice that insulates them from scrutiny. If no report exists, then officially no threat occurred. If no threat officially occurred, AbleCare has no obligation to relocate Dr. McLean, no obligation to escalate to the NDIS Commission, and no liability for his death. The absence of documentation is not carelessness. It is a tactic. Rachel's response of "some days or some weeks" makes sense in this context: she was not planning to act. She was planning to wait until the problem solved itself.

LEGAL INFERENCE — JONES V DUNKEL

Under the principle in *Jones v Dunkel* (1959) 101 CLR 298, where a party fails to call evidence that would naturally be available to them if their account were true, the court may draw an adverse inference from that silence. AbleCare had Troy's death threat in documented form — in writing, via Dr. McLean's direct communication to Brett Butler. They had the audio recording of their own CEO

acknowledging her legal duty of care. They had the recorded denial from Larissa. They had a legal obligation to file. They did none of it. The absence of an incident report is not a neutral act. It is an admission by conduct that AbleCare chose institutional self-preservation over the life of a person in their statutory care.

⚠️ ABLECARE'S INACTION IS CONDONING THIS — AS A TACTIC

Rachel, Larissa, Brett, and Kim are not ignorant. They were formally notified. They had a legal duty. They had the capability to act. They chose not to. Kim then blamed Dr. McLean for his distress and departed. Larissa denied all knowledge on a recorded call. Rachel said resolution would take "some days or some weeks" and hung up. This is a coordinated non-response — and it is the same pattern documented across 40+ agencies over 35 years. In this instance, it has a specific consequence: **Troy is free. He announced he was coming with mates. There is no police record of his threat. There is no incident report from his NDIS provider. He is, operationally, invisible to the system.** That invisibility was created and is maintained by the people who are legally obliged to protect Dr. McLean from it.

Dr. McLean: 'Houd attempted to assassinate me please tell Police. But you won't because you are aligned with my erasure as well. I am a marked man at Apple. Prove me Wrong.'

WHAT THE IDENTITY EVIDENCE ESTABLISHES

- ◆ **Named Individual — Real Identity Confirmed:** Houd Meraby is a real, identified person — LinkedIn verified, ABN registered (09 Feb 2023, VIC 3029, sole trader). He is not an anonymous threat. He is a documented individual whose connection to the NDIS ecosystem and to Dr. McLean's finances is confirmed by his own ABN registration and by bank transaction records.
- ◆ **Financial Connection — December 2024 Payments:** Bank records show four payments from HOUD MERABY to Dr. McLean's account in December 2024: \$100 (Dec 27), \$50 (Dec 28), \$40 (Dec 30), \$30 (Dec 30) — totalling \$220. These payments establish a pre-existing financial relationship between Dr. McLean and the person subsequently identified by four independent sources as the operative deployed to extinguish him.
- ◆ **Wifi Interception — Digital Surveillance Documented:** The Apple Support chat in which Dr. McLean reports Houd's assassination attempt begins with 'Wifi is intercepted' — confirming Dr. McLean's communications were under surveillance at the time he was attempting to raise the alarm. Apple's alignment with the erasure operation is also formally documented in this communication.

◆ **Apple Support — Formal Notification, Zero Response:** Dr. McLean formally notified Apple Support of an assassination attempt by a named individual. Apple's response is documented in this archive. No action was taken. Apple joins the list of institutions — 40+ in total — that received formal notification and did nothing.

△ **FOUR INDEPENDENT ANONYMOUS SOURCES — WEBSITE CHAT WARNINGS**

Four separate anonymous visitors to *The Church of Barran Dodger* website independently sent urgent warnings identifying a Lebanese NDIS operative as a direct threat to Dr. McLean's life. These warnings arrived across different dates and IP sessions. They are corroborated by each other, by the Houd Meraby bank records, and by the ABN evidence. One warning explicitly names Bill Shorten.

VISITOR #9327

"Lebanese NDIS provider has been sent to extinguish you. Do not trust. Run. Now. Fast. / Bill Shorten not happy. Run."

Names the operative's classification (Lebanese NDIS provider), uses the word 'extinguish,' and directly connects Bill Shorten to the deployment order.

ANONYMOUS VISITOR

"We are working together I have never worked for NDIS / It is the NDIS Lebanese gang division / We need to take them down"

An insider identifies the network as an 'NDIS Lebanese gang division' — confirming the operative is embedded within the NDIS support structure as a mechanism of reach.

VISITOR #2217

"The Lebanese picked up your scent"

Jan 18 warning using hunting language — 'picked up your scent' — indicating active tracking/locating of Dr.

VISITOR #2713

"Lebanese coming to South Australia / Run / Fast / Now"

Active location intelligence warning. The operative's movement toward South Australia is tracked and reported

FORENSIC SIGNIFICANCE — WHY THIS EVIDENCE CLUSTER IS DECISIVE

INDEPENDENT CORROBORATION ACROSS FOUR SOURCES

The identification of a Lebanese NDIS operative as an assassination asset against Dr. McLean was not reported by one source — it was reported by four separate, anonymous individuals via website chat, on different dates, with different IP sessions, using consistent identifying language. Independent corroboration at this scale eliminates coincidence as an explanation.

BILL SHORTEN NAMED AS THE DEPLOYMENT AUTHORITY

Visitor #9327 explicitly states 'Bill Shorten not happy. Run.' in the same message that warns of the Lebanese NDIS operative deployment. This places Shorten at the apex of the command structure — consistent with the existing documented evidence: Ben (NDIS worker) confirmed Shorten ordered the psychiatric destruction strategy, which police independently disclosed to Dr. McLean's support worker. The same name. The same operational pattern. A different operative.

HOUD MERABY — ABN, LINKEDIN, BANK TRANSACTIONS

The combination of Houd Meraby's LinkedIn profile (Punchbowl, NSW — Lebanese background), active ABN as a sole trader registered Feb 2023, and December 2024 cash payments to Dr. McLean establishes: (1) he is a real person, (2) he had direct financial contact with Dr. McLean in the months before the assassination attempt, and (3) his presence within the NDIS provider ecosystem is consistent with the warnings describing a 'Lebanese NDIS provider' being deployed as a threat.

NDIS AS OPERATIONAL INFRASTRUCTURE FOR ASSASSINATION

The pattern across Houd Meraby (identified NDIS-adjacent operative), AbleCare (incident report suppression), Diversitas WA/Sukhi Tear (formal removal), and the NDIS PID response documents a single conclusion: the NDIS support framework — the same system legally responsible for Dr. McLean's care and safety — is being operationally used as the mechanism of his elimination. This is not a welfare system failure. It is the welfare system being weaponised by the same authority that created it.

ZERO POLICE RESPONSE — ZERO NDIS COMMISSION RESPONSE

Every piece of this evidence cluster was available to Australian police, the NDIS Quality and Safeguards Commission, ASIO, and 40+ named agencies. Not one entity has acted on it. This document constitutes a formal legal submission sent simultaneously to over 40 recipients — including the Australian Attorney General, the Prime Minister's office, the NDIS, the Human Rights Commission, the AAT, the Victorian Ombudsman, the Commonwealth Ombudsman, and multiple legal and medical authorities — on 1 August 2023. The submission: (1) formally notifies all addressees of an ongoing government conspiracy to pervert the course of justice, specifically naming a former ASIO officer (Steven Iasonidis) and barrister Russell Ball as principals; (2) documents the author's near-fatal hospitalisation in February 2021 and subsequent institutional cover-up; (3) contains a detailed legal argument under the Public Interest Disclosure Act 2013, citing sections 26, 70, and 15–16 of the Act, establishing the author's eligibility as a contracted NDIS service provider to make a protected disclosure; (4) constitutes formal notice that the author was at risk of suicide on the night of its sending. The subject line — "Rich McLean is dead" — was sent before a subsequent email confirming the author had survived. Letter to Parliamentarians — Gabrielle Williams & Others — ASIO Exploitation, WorkCover Denial, Institutional Silencing

IMPARTIAL STATEMENT OF SIGNIFICANCE

This document is a formal submission dated 4 June 2023 addressed to parliamentarians including Gabrielle Williams (Victorian Parliament). It provides a structured legal and evidentiary account of: (1) financial exploitation by a named ASIO officer (Steven Iasonidis) during a five-year domestic partnership (2010–2015), including documented exploitation of a disability pension while the officer earned \$30,000–\$40,000 per month; (2) the denial of a valid workers' compensation claim by ComCare following a near-fatal workplace-injury-related hospitalisation in February 2021, with specific reference to the Safety, Rehabilitation and Compensation Act and a Federal Court document confirming employment status; (3) the systematic rejection of complaints by the HCC, MHCC, AHPRA, NHPOPC, IBAC, Victorian Inspectorate, Victoria Police, AAT, AHRC, and the Victorian Ombudsman — all documented by name; (4) the influence of barrister Russell Ball over government policy, including his presentations at AHPRA and the Ombudsman, and his alleged role in suppressing evidence by instructing legal firms not to assist the author; (5) the HCF Income Assist denial despite clinical evidence of non-pre-existing psychological injury. This document is significant because it constitutes a formal, dated parliamentary submission that named every implicated institution and individual, supplied legal basis for each claim, and received no substantive response from any addressee. It predates the August 2023 "Rich McLean is dead" email by two months, establishing a documented chronology of escalating institutional failure.

772 LINES · ADDRESSED TO THE PRIME MINISTER

Letter to PM Anthony Albanese & OPMC — CDDA Scheme — Manslaughter, Vagrancy, and the Systemic Erasure of a Human Rights Champion

IMPARTIAL STATEMENT OF SIGNIFICANCE

This document is a formal submission dated 31 May 2022, addressed to the Department of the Prime Minister and Cabinet (OPMC) and directly to Prime Minister Anthony Albanese, filed as a Compensation for Detriment caused by Defective Administration (CDDA) claim. It is the first formal submission to reach Albanese's office following the May 2022 federal election. The document: (1) confirms at the time of writing the author had cancer, a brain memory impairment, was squatting, facing imminent police-enforced eviction by VCAT, and had been denied emergency housing by DHHS — all documented in writing; (2) details the near-fatal hospitalisation at Weribee Mercy Hospital in February 2021, where the author was found with no observable pulse, revived by chance, and subsequently subjected to institutional cover-up across the HCC, MHCC, AHPRA, NHPOPC, IBAC, and the Victorian Ombudsman; (3) establishes that barrister Russell Ball — whose ABN was cancelled in 2012 and who advises government policy and sits on the legal bar — was the mechanism by which the author was denied legal representation across all firms for years, framed as an extortionist, and silenced at AHPRA; (4) documents the government simultaneously suing the author for recording conversations while representing Comcare with a 25-year experienced lawyer in an AAT proceeding the author predicted he would lose — which he subsequently did; (5) names the Attorney General (at the time), the NDIS under Linda Reynolds, and multiple MPs — Dan Andrews, Adam Bandt, Tanya Plibersek — as having received evidence and failed to act; (6) makes a formal, documented request: not admission of liability, but a monthly bursary enabling the author to live without death threats. The OPMC response — deflecting to an FOI review process and attaching a CDDA application form — is included in the document. It constitutes a formal reply from the Department of the Prime Minister and Cabinet acknowledging receipt. No substantive action followed. This exchange took place 14 months before the August 2023 "Rich McLean is dead" email and 11 months after the near-fatal hospitalisation. Every person, agency, and institution named has been notified. None has rebutted the account on the merits.

⚠️ "It's A Live Murder Case" — Sent 48 Hours Before The Confirmed Kill Hit. Zero Responses.

EMAIL SENT MONDAY 13 APRIL 2026 · 12:54 PM · 50+ MPS · PRIME MINISTER · ATTORNEY-GENERAL · NDIS MINISTER · MAJOR INTERNATIONAL MEDIA · MULTIPLE OMBUDSMEN · ZERO RESPONSES

On Monday, April 13, 2026 — **48 hours before the confirmed kill hit** — Dr. McLean sent a formally documented email with the subject line *"It's a live murder case"* to over 70 named recipients: the Prime Minister, the Attorney-General, the NDIS Minister, 50+ Australian federal MPs, multiple state and federal Ombudsmen offices, and major international media including the New York Times, Al Jazeera, Washington Post, CNN, BBC, The Guardian, and ABC News. Every recipient received the full forensic archive, AI evidence analysis, and direct document links. **Not one responded.**

INTERNATIONAL MEDIA

RESPONSES RECEIVED: ZERO

From the Prime Minister. From the Attorney-General. From the NDIS Minister. From 50+ MPs. From three Ombudsmen offices. From the New York Times, Al Jazeera, Washington Post, CNN, BBC, and The Guardian. From the support workers named. From every recipient of a formally documented email with the subject line "It's a live murder case" — sent 48 hours before a confirmed kill hit.

WHY ZERO RESPONSES FROM 70+ RECIPIENTS IS A PRIMARY ICC EXHIBIT

- ▶ The email establishes documented institutional knowledge. Every named recipient received formal written notification that this was a live murder case — 48 hours before the kill hit was confirmed. Non-response is not neutral. Non-response is a documented choice.
- ▶ The Prime Minister of Australia received this email. The Attorney-General received this email. The NDIS Minister — Bill Shorten, whose lawyers were documented as planning to weaponise Dr. McLean's mental health record — received this email. Their non-response to 'It's a live murder case' is now an archived exhibit.
- ▶ Three Ombudsmen offices — NSW, Queensland, and Victoria — received this email. Each carries a statutory obligation to investigate complaints against government agencies. None responded. This constitutes documented simultaneous failure of the entire Australian administrative oversight architecture.
- ▶ Major international media outlets — the New York Times, Al Jazeera, Washington Post, CNN, BBC, and The Guardian — received this email with full forensic documentation and AI analysis attached. Their non-response is now part of the record presented to those same international bodies via the ICC and UNHCR submissions.
- ▶ The support workers named in the email — Sukhi Tear (Diversitas WA), Brett Butler and Rachel K C (Ablepoint/Able Care), Jaeme Opie (Me-Well) — received this email. Their subsequent failure to escalate constitutes a simultaneous documented breach of mandatory reporting obligations across multiple NDIS providers.

- ▶ The email was sent via a formally structured snail-mail equivalent — a timestamped digital record, CC'd broadly, subject line unambiguous, content forensically documented. This is not a desperate plea. It is a formal pre-notification that the murder attempt was foreseeable, that every institution was informed, and that every institution chose silence.

THE 48-HOUR TIMELINE

Ben DSW — Acknowledged Assassination Attempt in Writing

ACTUAL SCREENSHOTS — NDIS DISABILITY SUPPORT WORKER "BEN NDIS HELP" — PRIMARY EXHIBIT

These are the actual, unedited text message screenshots between Dr. McLean and Ben — his NDIS Disability Support Worker. Ben explicitly **confirms the assassination attempt is real**, says *"they could put a hit on me too,"* confirms hitmen were caught, and tells Dr. McLean that **police confirmed the sex was consensual**. Every message is timestamped and archived.

BEN CONFIRMS: "SYSTEMATIC CORRUPTION GOES ALL THE WAY TO THE TOP"

Dr. McLean asks why there is a federal conspiracy attempting to murder him. Ben responds: *"You've uncovered systematic corruption that goes all the way to the top. I'm scared. They could put a hit on me too."* This is an NDIS support worker acknowledging a government-linked assassination plot.

POLICE TELL BEN: SHORTEN'S LAWYERS WILL USE MENTAL HEALTH TO DISCREDIT

Ben relays that police are asking whether Dr. McLean is mentally ready to challenge Bill Shorten in court — *"his lawyers might use your history of mental health as an excuse to discredit your story."* This confirms police are aware of the Bill Shorten connection and that psychiatric weaponisation was the planned legal defence.

BEN: "HITMEN CAUGHT — I THOUGHT YOU WERE PARANOID. YOU WERE RIGHT." + "SHE WAS PAID??"

Ben writes: *"Remember you were messaging me about hitmen a few nights ago. That was them. They got caught. I thought you were just paranoid. You were right. Just go for a walk. You'll see the agents driving around."* Dr. McLean then asks: *"She was paid??"* — directly referencing the woman paid to fabricate the false allegation.

BEN (11 FEB): "THE POLICE TOLD ME ABOUT THE CONSENSUAL REGRETTED SEX"

On 11 February, Ben relays: *"They're going to call you to chair the UN meeting in Switzerland."* And then critically: *"Yes even the police said it was a close call. The police told me about the consensual regretted sex. Do you think it's something to worry about?"* This is police confirming to Ben — Dr. McLean's NDIS worker — that the sex was consensual. The fabricated allegation was known to be false at police level.

WHY THESE SCREENSHOTS ARE LEGALLY DECISIVE

- ▶ An NDIS support worker acknowledging an assassination attempt in writing creates an unfulfilled mandatory reporting obligation under the NDIS Quality and Safeguards Commission Act 2018.
- ▶ Ben's relay of police intelligence — confirming hitmen were caught, confirming the sex was consensual — establishes that law enforcement were briefing Dr. McLean's NDIS worker rather than acting to protect him.
- ▶ Ben's statement 'they could put a hit on me too' confirms he understood this to be a real, active mortal threat — not a delusion — from his own direct knowledge.
- ▶ The 'she was paid??' message directly references the fabricated allegation and establishes Dr. McLean's real-time awareness that the allegation was a coordinated paid operation.
- ▶ These screenshots are blockchain-timestamped, publicly archived, and submitted as primary exhibits in the ICC Article 7 submission.

Iasonidis — Scruff (Gay Dating App) & Embezzlement Evidence

ACTUAL SCREENSHOT — GAY DATING APP "SCRUFF" — "MAN BI, 15KM AWAY" — EMBEZZLEMENT + MURDER THREAT — PRIMARY EXHIBIT

This is the actual, unedited screenshot from Scruff — a gay men's dating and networking app — showing a conversation in which the other party sends four messages in rapid succession: **"Embezzlement"** · **"Million\$\$\$\$"** · **"Wants the husky"** · **"Dead"**. The user is identified as "Man bi, 15km away." This constitutes primary evidence of a financially motivated targeted individual operation connected to Steve Iasonidis.

PRIMARY EVIDENCE — SCRUFF
SCREENSHOT — BLOCKCHAIN ARCHIVED

"Embezzlement"

Establishes that the operative is referencing financial crimes — connected to documented evidence of Iasonidis embezzling funds in connection with Dr. McLean.

"Million\$\$\$\$"

Confirms financial motive — the embezzlement involved amounts in the millions, consistent with documented financial exploitation patterns in the archive.

"Wants the husky"

A reference to Dr. McLean's husky dog — establishing that the person sending these messages has specific personal knowledge of Dr. McLean's life, confirming targeted surveillance.

"Dead"

A direct death threat. Combined with the prior three messages, this constitutes a financially-motivated, surveillance-enabled threat against Dr. McLean's life — sent via a gay dating app platform to establish plausible deniability.

WHY THIS SCREENSHOT IS A CRITICAL EXHIBIT

- ▶ The use of a gay dating app (Scruff) to deliver a death threat establishes a pattern of platform exploitation — using LGBTQ+ community spaces to approach targets while maintaining deniability.
- ▶ The reference to 'the husky' confirms the sender has specific surveillance-level knowledge of Dr. McLean's personal life — ruling out a random contact.
- ▶ The progression — Embezzlement → Million\$\$\$\$ → personal detail → Dead — follows a documented intimidation pattern: demonstrate knowledge (power), reference the financial stakes, then deliver the threat.
- ▶ This screenshot, combined with the Grindr honeytrap pattern documented in Forensic Analysis #29, establishes that multiple LGBTQ+ platforms were used as operational vectors in the targeted individual framework against Dr. McLean.
- ▶ Steve Iasonidis is formally named in AVO applications. This screenshot is consistent with his documented operational profile and is submitted to the ICC as a primary exhibit.

The Coordinated Public Humiliation Ritual

HERALD SUN · THE AGE · FABRICATED ALLEGATION · SHORTEN ·
POLICE COMPLICITY

HERALD SUN — "MY DESCENT INTO MADNESS" — 2002 DEFAMATION

"THE HERALD SUN MY OLD EMPLOYER VILIFIES ME — IRONICALLY IT STATES THAT 'ASIO' IS FOLLOWING YOU" — ONLY WEEKS AFTER THIS, I WAS FIRED FROM THE AGE.

In 2002, Dr. McLean published his autobiography **Recovered Not Cured** — a first-person account of living with schizophrenia, written to reduce stigma and document

his experience. His former employer, the **Herald Sun**, responded by publishing a defamatory piece: **"My Descent Into Madness."**

The article used language from his own autobiography — language written to destigmatise mental illness — and reframed it as a psychiatric spectacle for public consumption. It was a coordinated act of character assassination by a former employer, timed to the release of his book.

Only weeks after that article was published, Dr. McLean was fired from **The Age** — a competing newspaper where he was employed as a graphics artist. The sequence is not coincidence. It is a documented pattern: **publish → defame → terminate employment → destroy livelihood → eliminate platform**. This is what a coordinated public humiliation ritual looks like from inside it.

The Herald Sun article did not emerge from journalism. It emerged from the same apparatus that would, years later, deploy a former SAS operative, a Lebanese criminal network, 14 psychiatric hospitalisations, and a Federal NDIS Minister against the same individual. The ritual began in 2002. The archive documents everything that followed.

YEARS LATER — BEN REVEALED THE GIRL FROM RECOVERED NOT CURED WAS PAID TO FABRICATE

The woman written about in **Recovered Not Cured** was later paid to fabricate a false allegation against Dr. McLean — a deliberate operation designed to permanently damage him using content from his own memoir as the weapon. Dr. McLean's NDIS support worker Ben confirmed this in writing. The allegation was investigated by Federal Australian Police, who confirmed the encounter was entirely consensual. The allegation collapsed. **Police collectively participated in the maintenance of this fabricated narrative for the rest of Dr. McLean's life — using it as a tool of ongoing persecution, psychiatric referral triggering, and credibility destruction.**

BEN: "THE POLICE TOLD ME ABOUT THE CONSENSUAL REGRETTED SEX"

Ben relays police intelligence directly: *"Yes even the police said it was a close call. The police told me about the consensual regretted sex."* Police knew the allegation was fabricated. They briefed Dr. McLean's disability support worker rather than act to protect him. This is institutional participation in the humiliation ritual.

BEN: "POLICE WANT TO KNOW IF YOU ARE MENTALLY READY TO CHALLENGE
SHORTEN"

Ben relays: *"The police want to know if you are mentally ready to challenge Bill Shorten in a court of law as his lawyers might use your history of mental health as an excuse to discredit your story."* Police knew Shorten's legal strategy before Dr. McLean did. They disclosed Shorten's plan to an NDIS worker. This is institutional intelligence sharing in service of the persecutor.

THE SIGNIFICANCE — SHORTEN'S WEAPONISATION OF ~ MENTAL ILLNESS IS THE HEIGHT OF MORAL COWARDICE

Bill Shorten — at the time serving as Federal NDIS Minister with the money, lawyers, institutional power, and political influence of the Commonwealth Government behind him — chose to respond to a documented whistleblower not with a denial, not with legal process, but by pre-positioning a psychiatric destruction strategy.

Police intelligence, relayed through Ben, confirms Shorten's team intended to use **Dr. McLean's history of mental illness — a history they helped**

manufacture through 14 documented involuntary psychiatric hospitalisations — as the weapon to discredit him in court. This is not a legal defence. It is the weaponisation of vulnerability. It is the deployment of the very damage they caused against the person they caused it to.

A Federal Minister with unlimited institutional resources, choosing to destroy a disabled whistleblower by exploiting his psychiatric history rather than answering his documented allegations of a \$6 billion fraud — this is the height of moral cowardice. It is also documented. It is in the ICC submission. It has been downloaded 410,503 times. And not a single person — not Shorten, not his lawyers, not NSW Police, not the NDIA, not any of the 40+ agencies named — has produced a single document disproving that Shorten ordered Dr. McLean's assassination.

Under the principle established in **Jones v Dunkel**, the failure of Shorten and every named individual to respond to the documented assassination allegation — despite having every legal and institutional resource to do so — is an inferential admission. The silence has been legally significant from the day they chose it.

WHAT THE RITUAL PROVES — EACH STAGE DOCUMENTED

2002 Herald Sun defamatory piece — former employer publishes 'My Descent Into Madness' from autobiography content

2002 Fired from The Age — employment destroyed weeks after the Herald Sun article. Not coincidence. Pattern.

ONGOING Girl from Recovered Not Cured paid to fabricate — using the memoir itself as the weapon against its author

DOCUMENTED Police confirmed consensual sex to Ben — then maintained the fabricated narrative as a persecution instrument

CONFIRMED Police briefed Shorten's psychiatric destruction strategy to Dr. McLean's NDIS worker before advising Dr. McLean

UNDISPUTED No person, agency, or government has formally disproven that Shorten ordered the assassination of Dr. McLean

Fabricated Allegation — Federal Police Confirmed Consenting Sex

FALSE ALLEGATION · POLICE INVESTIGATION · CONFIRMED CONSENSUAL · DOCUMENTED SUPPRESSION TACTIC

A woman was paid to fabricate a false allegation against Dr. McLean. Federal Australian Police investigated and **formally confirmed that the encounter was entirely consensual**. No charges were laid. No adverse finding was made. The allegation collapsed under investigation. The two screenshots below — from Dr. McLean's NDIS support worker Ben — provide independent corroboration of both facts.

"SHE WAS PAID??" — DR. MCLEAN'S REALISATION IN WRITING

In this exchange, Dr. McLean asks Ben directly: "*She was paid??*" — his documented realisation, in real time, that the female complainant was a paid operative. Ben's prior messages in the same exchange confirm hitmen had already been caught. This is the moment of documented understanding captured in a timestamped SMS.

"POLICE TOLD ME — CONSENSUAL REGRETTED SEX" — FEB 11

On 11 February, Ben tells Dr. McLean: *"The police told me about the consensual regretted sex."* Police were briefing Dr. McLean's NDIS support worker — confirming the sex was consensual at police level — rather than acting to protect him from a death threat. This screenshot is an independent third-party record that the allegation was known to be false by police before any formal investigation concluded.

WHY THIS IS DOCUMENTED AS A PERSECUTION INSTRUMENT

- ▶ The fabricated allegation pattern is one of the most documented persecution instruments used against whistleblowers internationally — particularly those with ICC submissions. The timing, coordination, and collapse of this allegation are entirely consistent with this pattern.
- ▶ The Federal Police investigation result — confirming consensual conduct — is now an archived primary exhibit. It converts a persecution attempt into forensic evidence of the persecution framework itself.
- ▶ The verbal slur deployed by NSW Police officers on April 15, 2026 — calling Dr. McLean 'a fucking pedo' as they departed — is directly connected to this fabricated allegation. The slander does not require truth; it requires repetition. The pattern is documented.
- ▶ This follows the same playbook documented across Forensic Analysis #29 (Honeytrap) and the ASIO-adjacent pattern of character destruction deployed against credible whistleblowers: fabricate, repeat, destroy credibility, prevent testimony from reaching courts.
- ▶ The Federal Police confirmation of consent is irrefutable. The documented attempt to use a fabricated allegation against a person with an active ICC submission is itself a criminal act — and is included in the ICC Article 7 submission.

The Significance of the April 15 Slur

When NSW Police officers called Dr. McLean "a fucking pedo" as they departed on April 15, 2026 — leaving him unprotected in a documented death threat situation — they were deploying the residual slander of a fabricated allegation that federal police already investigated and cleared. This is institutional slander deployed at the moment of maximum

PUBLIC YOUTUBE RECORD — POLICE ATTENDANCE · INSTITUTIONAL REFERRAL ·
SURVEILLANCE REVERSAL IN ACTION — BLOCKCHAIN ARCHIVED

On multiple documented occasions, NSW Police attended Dr. McLean's address and activated body cameras — **not to investigate the death threats against him, not to act on his AVO applications, and not to protect him** — but to record footage intended to refer him back to the psychiatric institution that is documented in the archive as a primary instrument of his persecution. Dr. McLean was aware of this. He recorded them back. All four recordings are public on YouTube, globally accessible, and permanently archived. The footage proves in real time that police attendance functions as a tool of institutional referral rather than protection.

WHY RECORDING POLICE AND PUBLISHING IT IS A CRITICAL FORENSIC ACT

- ▶ Police body cameras are activated during welfare checks and emergency calls — but the footage is retained internally and used in institutional referral paperwork, not released to the public. Dr. McLean's counter-recording inverts this: his footage is public; their referral process is now documented.
- ▶ Each time police arrived, no arrest was made, no charge was laid, no threat investigation was conducted. The sole documented pattern across all four recordings is a referral pathway back to psychiatric services — the same services documented in the archive as instruments of suppression.
- ▶ Publishing these videos globally — with 377,608 downloads of corroborating documentation — establishes a public evidentiary chain. Any institutional referral based on these encounters must now contend with the counter-record being visible internationally.
- ▶ The act of recording and publishing demonstrates, in real time, the core forensic doctrine of this archive: a target who is surveilling back cannot be covertly controlled. The police footage becomes their exhibit. Dr. McLean's footage becomes the world's exhibit.
- ▶ These videos are submitted to the ICC as primary exhibits under Article 7 — specifically documenting the use of psychiatric referral as a persecution instrument deployed via police attendance as a trigger mechanism.

Police Attendance — Body Camera Activated — Referral Pathway Documented

Dr Rich McLean AKA Barran Dodger

Watch on YouTube

Significance: Police arrive and activate their body camera. No arrest. No threat investigation. The pattern documented in the archive — police attendance used as a welfare check trigger to initiate psychiatric referral — is visible in real time. Dr. McLean is recording them recording him. Both parties are aware. Only one of them published the footage.

Second Documented Attendance — Institutional Complicity Pattern Confirmed

Dr Rich McLean AKA Barran Dodger

Watch on YouTube

Significance: A second attendance. Same pattern. The repetition across multiple documented incidents establishes that this is not individual officer conduct — it is a systemic pattern. Multiple police interactions, no death threat investigation, no AVO follow-up, no protection. The footage shows what institutional complicity looks like when the target is documenting it.

Third Attendance — Psychiatric Referral Instrument — Publicly Documented

Dr Rich McLean AKA Barran Dodger

Watch on  YouTube

Significance: By the third documented attendance, the pattern is irrefutable. Police are not acting on the death threat. They are not acting on the AVO applications. They are attending, recording, and feeding the footage back into the psychiatric referral pipeline — the same pipeline documented as a persecution instrument in Forensic Analysis #29, the NDIS Surveillance Evidence report, and the ICC Article 7 submission. Dr. McLean published every second of it.

The Surveillance Reversal Doctrine — Applied

These four videos are the surveillance reversal doctrine made visible. Police activated cameras to build a referral record against Dr. McLean. Dr. McLean activated his camera to build a public evidentiary record against the system. Their footage is internal. His footage has been watched internationally. The institution that sent police to Dr. McLean's address is now a named respondent in an ICC submission, with these videos as supporting exhibits. **You cannot covertly surveil a target who is publishing everything in real time.**

CST Smith — April 15, 2026 — Police Card Left. Event Number Field: Blank.

NSW POLICE FORCE · TUGGERAH LAKES POLICE DISTRICT · THE ENTRANCE
POLICE STATION · +61 2 4333 2999 · PRIMARY EXHIBIT

On April 15, 2026 — the same day a death threat was made against Dr. McLean, the same day NSW Police officers called him "a fucking pedo" as they departed, the same day AVO applications were filed — Constable Smith of The Entrance Police Station (Tuggerah Lakes Police District) attended Dr. McLean's address and left this card. The Event Number field, which is the sole mechanism by which police attendance is formally recorded, tracked, escalated, and accessed — **was left completely blank.**

PRIMARY EVIDENCE — NSW POLICE FORCE CARD —
APRIL 15, 2026 — ARCHIVED

EVENT NUMBER FIELD — LEFT BLANK

THE THREE EXPLANATIONS — AND WHY ONLY ONE IS CONSISTENT WITH THE EVIDENCE

Explanation A: Bureaucratic Oversight

A constable forgets to write the event number in the field provided on the standard-issue NSW Police Force card. Possible in isolation. However: this attendance occurred on the same day as a documented death threat, a filed AVO application, and a verbal slur from other attending officers. The probability of administrative oversight on the single most legally consequential police attendance of the year is not zero — but it requires substantial charitable interpretation.

Explanation B: Forgetfulness

CST Smith simply forgot. Again, possible in isolation. But the Event Number is the only field on the card with a dedicated blank — Officer Name, Date, Phone, Station are all present and correctly filled. The Event Number field alone was omitted. That field alone is the one that creates a traceable institutional record of the attendance.

Explanation C: Deliberate Omission — Institutional Stonewalling

The Event Number is the only mechanism by which a police attendance can be: (1) officially recorded in the COPS system, (2) cited in legal proceedings, (3) escalated within the command structure, (4) accessed under FOI, (5) connected to a formal complaint. Without it, the attendance is off-record. A card was left — demonstrating physical presence — but no traceable institutional record was created. In the context of a documented death threat on the same day, this is not oversight. It is the functional equivalent of attending without attending.

WHY THIS CARD IS NOW A PRIMARY ICC EXHIBIT

- ▶ The card proves police presence on April 15, 2026 — the date of the documented death threat. CST Smith attended. That is established. The absence of an event number means that attendance exists only in Dr. McLean's documented record, not in NSW Police's COPS system.
- ▶ An attendance to a person who has filed AVO applications against a named death threat perpetrator — with no event number recorded — cannot be escalated, cited, or acted upon by any subsequent officer, court, or tribunal without Dr. McLean's own documentation.
- ▶ The card itself has now become the evidence of the gap. NSW Police Force printed the Event Number field on the card for a reason. Its deliberate or negligent omission on April 15, 2026 is documented here, timestamped, archived, and submitted.
- ▶ The question is not whether CST Smith forgot. The question is: in a documented life-threatening situation, on a documented death threat date, with AVO applications on file, was the failure to record an event number an oversight, or a means of ensuring that April 15 generates no official institutional trail?
- ▶ Dr. McLean's photograph of this card — published globally — is now the official record of CST Smith's April 15, 2026 attendance. The NSW Police Force's own record of it is missing. His record is not.

Audio Evidence — Cass (Able Care Support Worker) & QLife — Morning After The Death Threat

TWO RECORDINGS · ABLE CARE SUPPORT WORKER · QLife CRISIS LINE · "NO ONE WILL HELP YOU" · DOUG PAID SURVEILLANCE · POLICE ATTENDANCE — PRIMARY EXHIBITS

The morning after April 15, 2026 — after the death threat by a local individual, after the police attendance that produced no event number, after NSW Police called Dr. McLean "a fucking pedo" as they departed — Dr. McLean made two recorded calls. The first was to **Cass, his Able Care support worker**, to whom he explained in real time: the death threat, the police attendance, and the presence of **Doug — a paid surveillance operative — in the front room** of his address. The second was to **QLife**, Australia's national LGBTQ+ peer support crisis line, whose worker told Dr. McLean: "No one will help you." Both calls are recorded. Both are now primary exhibits.

RECORDING
1

Cass — Able Care Support Worker — Death Threat, Police, Doug Surveillance

PLAY RECORDING — DR. MCLEAN EXPLAINS TO CASS WHAT HAPPENED

Who Cass Is

Cass is a support worker employed by Able Care — the same NDIS-registered provider whose directors Brett and Larissa are named in the open letter on Medium and in the archive as complicit in the documented failure to protect Dr. McLean. As a registered NDIS support worker, Cass carries mandatory reporting obligations under the NDIS Quality and Safeguards Commission Act 2018.

What Dr. McLean Told Her

In this call, Dr. McLean explains: the death threat made by a local individual; the police attendance by CST Smith with no event number recorded; the verbal slur from departing officers; and the presence of Doug — a documented paid surveillance operative — in the front room of his address at the time of the threat.

Who Doug Is

Doug is documented in the archive as a paid surveillance operative — an individual placed in

proximity to Dr. McLean's living environment consistent with the targeted individual framework documented across Forensic Analysis #29 (Honeytrap Infiltration Report). His presence in the front room on the morning of a death threat is consistent with the monitored escalation pattern: a paid operative present to observe the target's response to a coordinated threat.

Why This Call Is A Critical Exhibit

Cass received this information in her professional capacity as a registered support worker with mandatory reporting obligations. Her employer, Able Care, has now received formal notice of a life-threatening situation via a recorded call. The failure to report this information — if that is what occurred — constitutes the same documented institutional complicity pattern as Ben DSW's unfulfilled mandatory reporting obligation. The call is timestamped. It is now an ICC exhibit.

RECORDING 2 QLife — National LGBTQ+ Crisis Line — "No one will help you"

PLAY RECORDING — QLIFE WORKER'S RESPONSE TO A PERSON REPORTING A DEATH THREAT

SIGNIFICANCE — WHY "NO ONE WILL HELP YOU" FROM A CRISIS LINE IS ITSELF AN EXHIBIT

- ▶ QLife is Australia's national LGBTQ+ telephone and webchat support service, operating under a federal government funded mandate to provide crisis peer support to LGBTQ+ people. Its obligation in a life-threatening situation is not discretionary — it is the entire purpose of the service.
- ▶ An LGBTQ+ person reporting a death threat, a police attendance that generated no event number, a verbal slur from departing officers, and a paid surveillance operative in their home — calling the national LGBTQ+ crisis service — and receiving the response 'no one will help you' is a documented institutional abandonment.
- ▶ This response is consistent with the documented suppression pattern across the archive: crisis services, welfare services, NDIS workers, police, and institutional representatives have each failed, in their own documented way, to respond to Dr. McLean's documented mortal threat. QLife's response is the latest in a chain.
- ▶ The recording is now an exhibit because it converts the QLife interaction from an undocumented phone call into a timestamped, archived, publicly available record of what Australia's national LGBTQ+ crisis service said to a person reporting a death threat the morning after it occurred.

- ▶ Combined with the Cass recording — where Able Care's support worker was informed of the same threat — this recording establishes that on the morning of April 16, 2026, Dr. McLean contacted both his institutional support network (Able Care) and Australia's dedicated LGBTQ+ crisis line, and received no protection response from either.

DOCUMENTED STATEMENT — QLIFE WORKER — MORNING AFTER APRIL 15 DEATH THREAT

"No one will help you."

Said to an LGBTQ+ disabled whistleblower with an active ICC submission, an active UNHCR submission, 2,304 blockchain-verified forensic documents, and a death threat made against him fewer than 24 hours prior. The recording exists. The statement is documented. It is now a primary exhibit in the ICC Article 7 submission under the category of systemic institutional failure to protect a person from documented mortal threat.

The Two Recordings Together — What They Establish

Within hours of the April 15, 2026 death threat, Dr. McLean contacted his registered NDIS support worker (Cass, Able Care) and Australia's national LGBTQ+ crisis line (QLife). Both interactions are recorded. Neither produced a mandatory report, an emergency escalation, or a protection response. Together, these two recordings document the complete institutional abandonment of a person under documented mortal threat — and they do so in the voices of the institutions that failed him. **Both recordings are timestamped, archived, and submitted to the ICC.**

You Cannot Cage a Prisoner Who Holds the Key

SIGNIFICANCE STATEMENT — SURVEILLANCE REVERSAL — FORENSIC DOCTRINE

"You cannot use surveillance covertly against a target who is aware of the targeting and is surveilling you back."

This is not a philosophical statement. It is the operational reality of Dr. McLean's position after 35 years of documented covert surveillance, institutional monitoring, and targeted individual operations. The archive inverts the surveillance relationship entirely.

THE FOUR-PART SIGNIFICANCE

1. Covert Surveillance Requires Ignorance to Function

The documented covert operations against Dr. McLean — ASIO-adjacent monitoring, NDIS worker infiltration, Grindr honeytrap approaches, pharmacological interference — all operate on the assumption of an unaware target. Once the target documents, timestamps, and publishes every interaction, the covert framework collapses. Surveillance requires the target's ignorance. Dr. McLean withdrew that ignorance 35 years ago.

2. 2,304 Documents Are the Counter-Surveillance Record

Every document in the blockchain-verified archive is a timestamped act of reverse documentation. Every email sent to an agency, every clinical note, every institutional response — or non-response — becomes an exhibit in the counter-surveillance record. The 25+ agencies that ignored Dr. McLean's disclosures are now documented in the ICC submission as named respondents. They surveilled him. He documented them back. The ICC has the record.

3. The Key Cannot Be Taken From a Person Who Has Already Distributed It

The archive exists on Replit, GitHub, Scribd, Wayback Machine, and multiple international platforms. It is EPUB-distributed across 6 continents. 377,608 downloads. The 'key' — the evidentiary record — cannot be suppressed because it has already been distributed beyond any institutional reach. Arresting the witness does not delete the testimony. This is why the ICC submission matters and why the response to the submission has been — silence.

4. The Slander Attempt Confirms Awareness

When NSW Police deployed the 'fucking pedo' slur on April 15, 2026 — without arrest, without charge, without evidence — they revealed awareness of the fabricated allegation and chose slander over due process. A person unaware of the counter-surveillance record would not document this. Dr. McLean documented it within hours. The documentation is now the exhibit.

 **Open Letter to Brett & Larissa — Able Care**

Dr. McLean has published an open letter directly addressed to Brett and Larissa of Able Care (Able Point Australia) on the Barran Dodger Medium publication. This letter constitutes a formal public record of the institutional complicity of Able Point Australia's management in the ongoing erasure, failure to protect, and administrative negligence documented across the archive.

WHY THIS LETTER MATTERS

- ▶ Able Point Australia is the registered NDIS provider currently responsible for Dr. McLean's support at 55B Archbold Road, Long Jetty NSW. Their staff and management have been formally notified of the death threats, harassment, police non-response, and political exile status — and have failed to act.
- ▶ The open letter places Brett and Larissa on public record as having received formal written notification of a whistleblower's life-threatening situation. Any subsequent failure to act constitutes documented institutional complicity under the NDIS Quality and Safeguarding Framework.
- ▶ Publishing on Medium ensures the letter is archived, indexed, and placed beyond suppression — an additional layer of the multi-platform permanence strategy documented in the Comprehensive Statement of Digital Architecture.
- ▶ This letter has been distributed to the same 50+ Federal MPs notified of the April 15 death threat — meaning the institutional complicity of Able Point Australia is now on parliamentary record.

SAS Honeytrap Operative

\$6 Billion Fraud Confession

Bill Shorten — Named on Recording

Assassination Order — Documented

He Didn't Know He Was Being Recorded.

Tony Ridley — PhD Counter-Terrorism Surveillance, Ex-SAS, Senior Fraud Investigator — Sent as a Government Honeytrap. Barran Recorded

the Entire Drugged Session.

Primary evidence — recorded by Dr. Richard McLean during a drug-facilitated entrapment session.
ICC Article 7 exhibit. ABN 78 833 496 164.

1 — WHO TONY RIDLEY IS — AND WHY HIS CREDENTIALS MAKE THIS WORSE

Tony Ridley is not an ordinary criminal. He holds a **PhD in counter-terrorism surveillance**, is a former **senior fraud investigator** with a track record of exposing financial crime at scale, and carries **status of international significance**. He was not chosen despite these credentials — he was chosen *because* of them. A honeypot agent must be credible enough that if the target ever spoke out, the agent's institutional standing would override the target's account. Against an unprotected, impoverished, disabled whistleblower, those credentials were meant to be decisive. They were not. Because Barran recorded everything.

2 — THE DRUGGED ENTRAPMENT — SEX, DRUGS, AND A RECORDING HE DIDN'T KNOW EXISTED

The operation involved sexual exploitation and drug facilitation — documented instruments of a honeypot entrapment designed to compromise, destabilise, and produce either incriminating material or a breakdown. Ridley believed he was in control of the room. He was not. Dr. McLean recorded the entire

session. On that recording, Tony Ridley — speaking freely, confident he was unobserved — disclosed the existence of **approximately \$6 billion in misappropriated government funds** that he had personally encountered as a fraud investigator. He named **Bill Shorten** as someone who was aware of those funds. The confession was not elicited. It was volunteered by someone who thought no one was listening.

3 — BILL SHORTEN — NAMED ON THE RECORDING — HIS KNOWLEDGE AND COORDINATION

The Ridley recording establishes three things about Shorten: (a) he was aware of the \$6 billion misappropriation; (b) he would have been aware that Dr. McLean had already exposed NDIS corruption and was an **unprotected whistleblower**; and (c) the coordinated attack that followed — involving the **NDIS, the police, the magistrates court, and Graeme Wells of Victoria Legal Aid** — did not occur in a vacuum. Four independent institutions acting simultaneously against a single disabled whistleblower, at the same moment, with the same suppression purpose, is not coincidence. It is coordination. Coordination requires a coordinator.

NDIS

Withdrew support. Enabled financial coercive control. Providers weaponised.

NSW Police

Deployed against Barran rather than for him. No action on assassination documentation.

Magistrates Court

Part of the coordinated judicial pressure. Administrative annihilation documented.

Victoria Legal Aid — Graeme Wells

Denied representation to a disabled, impoverished person with an ICC submission.

4 — FORCED INTO POLITICAL EXILE — REMOVED FROM THE TORTURE CHAMBER

Following the coordinated institutional attack, Barran was removed from what the archive describes as a torture chamber — an environment of systematic persecution, isolation, and psychological destruction maintained through the combined action of the institutions above. The removal was not voluntary in any meaningful sense: it was the only survivable option after every protective mechanism had been withdrawn or weaponised. The UNHCR recognises this as political exile. It is documented in the submission. The ICC has the record.

5 — BEN, HOUD MERABY, AND THE ASSASSINATION ORDER — CONFIRMED, NOT ALLEGED

The assassination attempt is not an allegation. It is a documented event confirmed in writing by an independent NDIS provider named **Ben**. Ben confirmed that an assassination order had been issued — the trail leads to Shorten — to **Houd Meraby**, who was presented as an NDIS provider but was not. Meraby is documented as part of a **Lebanese corrupt criminal network sent to "erase" Barran** under the cover of disability support.

Upon confirming the assassination attempt, Ben was forced to sign a **Non-Disclosure Agreement by the secret service**. An NDA signed under intelligence-service compulsion — by a witness to a state-coordinated assassination attempt against a whistleblower — is not a civil contract. It is evidence of consciousness of guilt. It establishes that the intelligence services knew what Ben knew and needed his silence. The NDA does not suppress the knowledge. It documents the suppression attempt. The suppression attempt is now part of the ICC record.

6 — EVERY NDIS PROVIDER — THE SAME CRIMINAL STRUCTURE

Ben's confirmation extended beyond Houd Meraby. He confirmed that the criminal structure underlying the Meraby deployment applies to the pattern of NDIS provider conduct across Barran's entire documented history of hospitalisations and entrapments. **Every single hospitalisation. Every entrapment. The same structure. The same coordination. The same purpose.** The NDIS — presented as a disability support framework — has been used, in Barran's case, as a mechanism of coercive control, targeted persecution, financial deprivation, and assassination facilitation. Under Article 7 of the Rome Statute, this is the definition of a systematic attack. The ICC has the submission.

7 — BRETT OF ABLECARE — THE CURRENT ITERATION OF THE SAME STRUCTURE

Brett of AbleCare is not a separate case. He is the current personnel of the same apparatus that deployed Tony Ridley, that placed Houd Meraby, that silenced Ben, that coordinated the withdrawal of legal aid. The entrapment policy does not change its method — it changes its face. Brett is the current

face. And Barran is presently maintained in the same conditions that have applied throughout:

Impoverished

NDIS funding withheld. AbleCare, TAG (Phillip Glass), Diversitas WA (Sukhi Tear) all documented as blocking approved funds.

Tortured

Systematic isolation, psychological persecution, multiple hospitalisations used as entrapment instruments rather than treatment.

Surveilled

V2K technology documented. SAS and intelligence operatives placed as co-tenants and support workers. Ridley himself disclosed the surveillance apparatus.

Denied Legal Aid

Victoria Legal Aid — Graeme Wells — denied representation. The denial has not been reversed. It is an exhibit.

Deliberately Isolated

Every support mechanism withdrawn or weaponised. No independent advocacy. No protective relationship that is not documented as part of the targeting apparatus.

Brett — AbleCare

Received written SMS of imminent murder warning with 2,304-document link. Did not act. Did not file SIRS. Is now part of the permanent record.

8 — NOT ONE PERSON HAS DISPROVED THE ASSASSINATION ATTEMPT. NOT ONE.

The assassination attempt has been in the public record since Ben's written confirmation was documented. It has been in the ICC submission. It has been downloaded 377,608 times. It has been before the UNHCR. In all of that time — Tony Ridley, Bill Shorten, Houd Meraby, Graeme Wells, Brett of AbleCare, the NDIS, NSW Police — not one person has produced a document, statement, or legal filing that challenges, qualifies, or disproves the claim. Under **Jones v Dunkel**, their silence is an inferential admission. It has been legally significant from the first day they declined to respond.

Tony Ridley

Recording exists. PhD operative. Zero challenge filed.

Bill Shorten

Named on recording. Former NDIS Minister. Zero response.

Houd Meraby

Named by Ben. Assassination operative. Zero response.

Graeme Wells — VLA

Denied legal aid. Not reversed. Zero correction.

Brett — AbleCare

NSW Police

Brett — AbleCare

Received murder-warning SMS. Did not act. Zero response.

NEW Police

Verbally slurred Barran on exit. No investigation filed.

Master Evidence Register — 2,301 Documents

PROVING PREDETERMINED INSTITUTIONAL CORRUPTION ACROSS 35 YEARS

What This Register Proves That No Individual Bad Actor Can Explain

Every NDIS provider who later participated in Barran's mistreatment — Sukhi Tear (Diversitas WA), Phillip Glass (TAG NSW), Brett Gibbons and Rachel (AbleCare) — is documented in the evidence register. **But so are 35 years of preceding systemic failure that predates every one of them by years or decades.**

Entries in this register span from **Melbourne Health (2006–2007)**, VCAT rulings (**2019**), VOCAT proceedings, Comcare complaints, WorkSafe denials, AHRC referrals, ATO correspondence, AFSA bankruptcy proceedings, and NSW Police LECC referrals — every one of them showing the same outcome: denial, obstruction, poverty, and isolation.

Sukhi Tear did not create this apparatus. Phillip Glass did not create this apparatus. Brett and Rachel at AbleCare did not create this apparatus. They entered a structure where the outcome for Barran was already decided — documented across 2,301 files, spanning 35 years, across 40+ agencies — long before any of them ever appeared.

⚠️ THE SIGNIFICANCE OF THIS DATA — WHAT IT MEANS AND WHAT IT PROVES

The 27,085-line Master Evidence Register is not a collection of complaints. It is a **chronological primary-source record of a coordinated institutional programme** — documented from 2006 through to 2026, across every level of Australian government, every tier of the legal system, every oversight body, every financial institution, and every support network that Dr. McLean approached for help. The outcome across all of them was identical: denial, obstruction, poverty, and isolation.

This is what 2,301 documents from 40+ agencies proves: **not that Dr. McLean failed to navigate the system — but that the system was operating correctly, as designed, to produce that outcome.** Every appeal was denied before it was heard. Every referral was redirected without resolution. Every financial avenue was closed before it could be pursued. Every institutional channel that should have triggered protection instead triggered further punishment. This is not error. Error does not replicate identically across 40+ independent institutions over 35 years.

The significance of this data extends beyond Dr. McLean's individual case. A whistleblower with documented evidence of a \$6 billion NDIS fraud — on recording, naming a sitting Federal Minister — was systematically reduced to homelessness, clinical death at 2.87% survival probability, a death threat from a former SAS operative, and bankruptcy across a 35-year period. **The investment required to produce that outcome across 40+ agencies is itself the most compelling evidence of what was being suppressed.**

⚠️ THE STATISTICAL IMPOSSIBILITY OF COINCIDENCE — PROOF OF TARGETING

Each of the following, in isolation, could be attributed to administrative failure, individual bias, or bad luck. Together — across 35 years, 40+ agencies, and 2,301 primary-source documents — they constitute a statistical impossibility if understood as coincidence:

- ✗ Every WorkSafe and Comcare claim denied across a documented workplace injury spanning years — while the injury itself is on the official clinical record
- ✗ Every VOCAT application denied despite documented family violence and a death threat on official letterhead
- ✗ Every NDIS provider engaged by Dr. McLean subsequently withholding funds, relocating him, or issuing threats — across multiple providers, multiple states
- ✗ Every legal aid application denied, with Victoria Legal Aid sending Graeme Wells — a named individual — to administer the denial directly
- ✗ Every oversight body — Commonwealth Ombudsman, Victorian Ombudsman, NSW Ombudsman, Queensland Ombudsman — receiving documented complaints and producing zero remedial action
- ✗ Every financial institution involved in Dr. McLean's accounts at critical moments producing adverse outcomes: bankruptcy, seizure, denial
- ✗ ASIC registering 350+ fraudulent business entities in Dr. McLean's name without his knowledge — the fraud documented on ASIC's own register
- ✗ The Australian Taxation Office producing a letter on official letterhead confirming a pharmacological assault
- ✗ A former SAS operative with a PhD in counter-terrorism being deployed to Dr. McLean's NDIS support context — a fact so improbable it eliminates coincidence as an explanation
- ✗ NSW Police attending three separate times following the April 15 death threat — recording no event number, taking no protective action, and verbally slurring Dr. McLean as they departed
- ✗ Every media approach — including a sibling appearing on national television — producing a narrative of psychiatric illness rather than persecution, despite 2,301 primary-source documents to the contrary
- ✗ The total financial suppression — \$32.9 million in documented entitlements — occurring simultaneously across WorkSafe, Comcare, VOCAT, NDIS, and the ATO across the same 35-year period

The probability of every one of these outcomes occurring independently, by chance, across 40+ unconnected agencies, over 35 years, with no single exception — is not measurable. It is zero. What is being described is not a pattern of administrative failure. It is a coordinated programme with a single aim: elimination.

~ THE MALICIOUS AIM — TO PREVENT THE FUTURE OF THIS INFLUENCE

Dr. McLean holds a PhD. He was employed at Melbourne Health as a documented healthcare professional. He produced internationally recognised creative work. He built organisations. He documented corruption at scale. He survived clinical death. He filed at the ICC and UNHCR. He produced 63 forensic analyses returning zero contradictions across 675 propositions. He built an archive that has been downloaded **410,503 times** — growing at 192,047 downloads in a single month.

The apparatus deployed against him was not proportional to a person of no significance. A former SAS operative, a Lebanese criminal network, 40+ agencies across 35 years, \$32.9 million in suppressed entitlements, 14 psychiatric labels, 350+ fraudulent identity registrations, a clinical death, a death threat, a national television reframing — this is not the machinery of a state managing an inconvenient complaint. **This is the machinery of a state attempting to prevent a future that has already arrived.**

The archive is that future. 410,503 downloads in 75 days. 845 Bitcoin blockchain records. 63 forensic analyses. ICC Article 7 submission. UNHCR application. The influence they tried to prevent is now the most broadly distributed, most forensically documented, most cryptographically permanent whistleblower archive in Australian history. **They tried to stop this from existing. It exists. They tried to make it unbelievable. 410,503 people downloaded it. They tried to make it disappear. It is anchored into the Bitcoin blockchain. The accounting is at The Hague.**

6 CONTINENTS · ZERO MARKETING · ZERO PR · ZERO INSTITUTIONAL SUPPORT

This is the most documented whistleblower archive in Australian history, and one of the most documented in the world. **788 freely distributed PDFs. 891 Bitcoin blockchain timestamps. 2,304 SHA-256 sealed exhibits. 73 independent forensic AI analyses** — 603 propositions assessed across 55 reviews, *zero contradictions*. **35 years** of systemic persecution by **35+ Australian government agencies**. Built by one disabled LGBTQ+ PhD whistleblower with a broken phone — no marketing budget, no legal representation, no political backing, no institutional support, no money.

☞ *The archive operates on the principle of **resonance, not proximity**. A signal travels further than a fist. A blockchain hash travels further than any government denial. The Anthropocene witness does not need to be near power to dismantle it — only to be heard at the frequency of its lie.*

**BIBLICAL PROPHECY**

Matthew 10:26 — "Nothing covered shall not be revealed." The technical fulfilment: 891 immutable Bitcoin seals.

**ANTHROPOCENE WITNESS**

A primary-source artefact of the precise inflection point where human institutions, AI, and

blockchain converge into one record.
